**"Car Tehc" is basically about the cars and trucks. The gameplay is split into two modes: Race and Burnout. You can choose from different cars in the menu screen and play. You can even jump in and use the car that your friends are playing as. The only difference between a car and a truck is that you can only jump from one to another. It's like a simple but fun game that's easy to play with friends. You can also have a drift. Here's the drift simulator part of the game: There are obstacles that you have to jump over in the road, and you can beat the other guy if you can beat him. A competition starts when you reach a checkpoint. This is a simple and fun game. New objects can be added in the future. More cars will be added in future DLC. "Car Tehc" is a fun game.
